

From the President

WELCOME TO TERRELL AMERICA

**Ray Dunlap, PCED**  
President  
Economic Development

Terrell is a progressive community with deep Texas roots and American

ideals. Established in 1873, many families have lived here for generations and businesses have long realized prosperity in our community. Terrell has the charm of a small town, embracing small town values and a strong Texas work ethic, while still being close enough to the DFW metroplex to provide access to the "big city". You'll find friendly neighborhoods, a historic downtown and a variety of recreational activities. Terrell schools graduate Oscar winners, Olympic athletes, U.S. Congressmen and world-class professionals. Our city is full of energetic volunteers, as well as service and civic organizations who are here for each other and to ensure the continuing legacy of our city.

Terrell has everything your company needs to grow and prosper. We offer aggressive incentive programs to encourage expansion, relocation and business retention. Users are attracted by our abundance of resources, cost of labor, transportation systems and low cost of occupancy which allows them to stay competitive. Our city has a strategic location at the intersection of I-20/U.S.80 and access to a non-unionized workforce of over 400,000. A wide range of commercial and private aviation services available at the Terrell Municipal Airport easily connects you to the Dallas Metroplex and the world. Our Economic Development staff is ready to assist you with the site selection process and any related information you need to consider Terrell, Texas as your new address.

Thank You,

**Ray Dunlap, PCED**  
President, Terrell Economic Development Corporation
